Re: **FW Webb**
Madison, NH

Dear Pat:

I wanted to personally thank you and your team for another successful project together. The strength of your team makes such a difference on a project like this. The professionalism and work ethic of your company really shines through. From Rob coordinating the details with his crew and attending job meetings to Charlie's attention to detail, the building looks fantastic. Again there was no punch list, which is unheard of and quite remarkable. Working on a job this far away from our office can be difficult, but not when we work with a company of your caliber.

We look forward to working with you and your team again in the near future.

Sincerely,

Keith A. Wentworth
Project Manager
